THASNEEM VELLARAMPARA

Date of Birth: 07/10/1998 | **Nationality:** Indian | **Gender:** Male

| **Phone Number:** +91 70348 59573 |

Email Address: thasneemmoosa5000@gmail.com

| **Portfolio: https://thasneemmoosa5000.pythonanywhere.com/**

ABOUT ME

Innovative and results-oriented Software Developer with **over 3 years** of professional experience in full-stack development, cross-platform mobile application development, and data analytics. Proficient in building scalable and high-performance applications using Python, Django, Flask, React, Flutter, and SQL, with strong expertise in backend architecture, RESTful API development, and database management. Demonstrated ability to transform complex technical requirements into reliable and user-friendly digital solutions while managing the complete software development lifecycle. Eager to contribute technical expertise and innovative development skills to a forward-thinking technology organization.

EDUCATION AND TRAINING

2018 – 2022
BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE & ENGINEERING
Glocal University, Saharanpur, UP, India

2018
HIGHER SECONDARY
MIC HSS Athanikkal, Athanikkal, Kerala, India

WORK EXPERIENCE

February 2026 – Present
SENIOR DATA ANALYST & FACULTY
OFSYS EDUCATIONS LLP, KERALA, INDIA

- Leading advanced training programs in Python, SQL, Power BI, and Tableau, equipping aspiring data professionals with industry-relevant technical skills.
- Delivering comprehensive instruction in Python full-stack development using Django and Flask, guiding learners in building scalable web applications including e-commerce and POS systems.
- Designing and implementing end-to-end analytics projects and full-stack solutions based on real-world business scenarios to enhance practical learning outcomes.
- Developing and optimizing ETL pipelines and data models to demonstrate complex data integration and transformation processes used in modern analytics environments.
- Mentoring and evaluating learners through structured assessments, providing constructive feedback on coding practices, dashboards, and analytical reporting.
- Facilitating hands-on workshops and technical labs that strengthen problem-solving abilities and application development skills among students.
- Creating and updating curriculum materials, coding exercises, and project frameworks aligned with current industry standards and technologies.
- Demonstrating best practices in data visualization, dashboard design, and data storytelling to support informed business decision-making.
- Collaborating with academic and industry stakeholders to continuously enhance training quality and ensure alignment with evolving data analytics market demands.

2024 – January 2026

DATA ANALYTICS TRAINER

BEAT CENTER OF EXCELLENCE, MALAPPURAM, KERALA, INDIA

- Conducted structured training sessions in data analytics tools and technologies, enabling learners to gain practical knowledge in industry-standard analytical practices.
- Delivered hands-on workshops focused on data cleaning, transformation, and visualization techniques to improve analytical proficiency among students.
- Designed practical lab sessions and guided learners in analyzing datasets to extract actionable business insights.
- Evaluated student assignments, capstone projects, and technical assessments to ensure consistent learning progress and competency development.
- Demonstrated the use of data visualization techniques to communicate insights effectively through charts, dashboards, and reports.
- Provided one-on-one academic support and technical guidance to help students overcome analytical challenges and strengthen problem-solving abilities.
- Organized project-based learning initiatives that simulated real-world data analysis scenarios across different business domains.
- Assisted students in preparing professional project documentation and presentation materials for portfolio development.
- Coordinated with academic teams to enhance training delivery methods and improve the overall learning experience.

2022 – 2024

FULL-STACK WEB DEVELOPER CUM TRAINER

IMAGECON INDIA PVT LTD, SALEM, INDIA

- Engineered Python-driven automation solutions to process and interpret IoT device data, strengthening system intelligence and monitoring accuracy.
- Architected and deployed server-side components and API frameworks using Django and Flask, enabling seamless communication between IoT devices and web platforms.
- Designed dynamic data visualization interfaces and analytical reporting tools to present device activity insights and operational performance metrics.
- Contributed to the development of smart automation technologies within the IoT ecosystem, ensuring reliable data exchange and system functionality.
- Facilitated technical learning sessions covering IoT architecture, programming concepts, and modern web technologies for both students and internal teams.
- Led interactive technical workshops that emphasized practical implementation, coding best practices, and system development workflows.
- Authored structured technical resources, operational manuals, and diagnostic guides to simplify product usage and reduce dependency on technical support.
- Partnered with engineering teams to support application integration, feature enhancement, and performance testing during development cycles.
- Demonstrated exceptional collaboration and commitment to team objectives, receiving the Ultimate Team Player Award in recognition of outstanding contributions.

2022 – Present

FREELANCE FULL-STACK & MOBILE DEVELOPER

FREELANCER, KERALA, INDIA

- Delivering customized web and mobile application solutions for startups and small businesses to support digital operations and customer engagement.
- Integrating secure online payment systems such as Razorpay, Stripe, and PayPal within e-commerce and service-based platforms to enable reliable transaction processing..

- Engineering cross-platform mobile applications using Flutter and Dart, ensuring consistent functionality and user experience across Android and iOS devices.
- Utilizing modern state management frameworks including Provider, Riverpod, and GetX to improve application scalability, performance, and maintainability.
- Implementing Firebase services such as Authentication, Cloud Firestore, and Cloud Storage to support real-time data synchronization and cloud-based functionality.
- Architecting server-side logic that includes RESTful service endpoints, structured database models, and secure user authentication mechanisms.
- Managing the full software development lifecycle from requirement analysis and solution design to testing, deployment, and system optimization.
- Collaborating closely with clients to identify business requirements, refine product functionality, and ensure solutions align with operational objectives.
- Providing ongoing technical support, performance enhancements, and application updates to maintain reliability and long-term usability of delivered solutions.

2021
PYTHON DEVELOPER INTERN
INFOX TECHNOLOGIES, KOCHI, KERALA, INDIA

- Assisted in the development of Python-based software solutions to support automation and internal business operations.
- Processed and analyzed datasets using Pandas and NumPy, enabling efficient data handling and analytical workflows.
- Contributed to the creation of backend services and API endpoints using Flask and Django to support internal application functionality.
- Implemented automated scripts to streamline repetitive tasks, improving productivity and reducing manual effort.
- Built web data extraction tools using BeautifulSoup and Selenium to gather structured information from online sources.
- Supported backend system improvements by refining database interactions and improving query execution efficiency.
- Participated in debugging and troubleshooting activities to identify and resolve application performance issues.
- Collaborated with development teams during coding, testing, and feature implementation phases of internal projects.
- Gained practical exposure to software development practices, version control workflows, and collaborative development environments.

CERTIFICATIONS & ACHIEVEMENTS

- **Architecting with Google Compute Engine** – Specialization, Google Cloud
- **VR/AR with Fusion 360 Workshop Certification**, Autodesk
- **Ultimate Team Player Award**, IMAGECON India Pvt Ltd
- **Second Place – Robotics Hackathon**, IEDC MESCE

KEY SKILLS

- Communication
- Time management
- Teamwork
- Innovation & Creativity
- Critical Thinking
- Customer service
- Leadership & Mentoring Ability
- Organization
- Multitasking
- Technical Curiosity

AREAS OF EXPERTISE

- Full-Stack Web Application Development
- Python Application Development
- Backend System Architecture & Microservices Development
- RESTful API Design, Development & Integration
- Cross-Platform Mobile Application Development
- Frontend Development & Responsive Web Design
- Database Design, Query Optimization & Data Management
- Payment Gateway Integration (Stripe, Razorpay, PayPal)
- Data Analytics & Business Intelligence Solutions
- Interactive Dashboard Development & Data Visualization
- ETL Pipeline Development & Data Transformation
- Cloud-Based Application Deployment & Management
- IoT Data Processing & Monitoring Systems
- Secure Authentication & User Authorization Systems
- API Testing & Integration using Postman
- Software Development Lifecycle (SDLC) Management
- Agile & Scrum Development Methodologies
- Version Control & Collaborative Development using Git
- Performance Optimization & Application Scalability
- Debugging, Troubleshooting & Code Refactoring

TECHNICAL SKILLS

- **Programming Languages -** Python, SQL, C, C++, Java, PHP, C#, R, Dart, JavaScript, TypeScript (Basic)
- **Backend Development -** Django, Flask, **FastAPI**, Laravel Framework, .NET Framework, RESTful API Development, Object-Oriented Programming (OOP), ORM (Object Relational Mapping)
- **Frontend Development -** React.js, HTML5, CSS3, JavaScript, Bootstrap, AJAX, Responsive Web Design, Vue.js (Basic)
- **Mobile Application Development -** Flutter, Dart, Firebase, REST API Integration, State Management, SQLite
- **Databases -** PostgreSQL, MySQL, **MongoDB**, Database Design & Query Optimization
- **Cloud & DevOps -** Google Cloud Platform (GCP), **AWS**, **Microsoft Azure**, Git, CI/CD Pipelines, JIRA, Postman, VS Code, Agile Development
- **E-Commerce & Payment Integration -** Shopify Development, Razorpay, Stripe, PayPal, Payment Gateway APIs, Secure Transaction Processing
- **Data Analytics & Business Intelligence -** Power BI, Tableau, Advanced Excel, Pandas, NumPy, ETL Pipelines, Data Modeling
- **Artificial Intelligence & Machine Learning -** Machine Learning Fundamentals, **Scikit-Learn, TensorFlow, PyTorch**, Large Language Models (LLMs)
- **Blockchain & Web3 -** Blockchain Basics, Smart Contracts (Basic), Solidity (Basic), Web3.js, MetaMask Integration, IPFS
- **Cybersecurity Fundamentals -** Kali Linux Basics, Penetration Testing Fundamentals, Secure Payment Systems

PROJECT DETAILS

Topic : E-Commerce Platform with Payment Integration
Technologies : Django, React, PostgreSQL, Razorpay, Stripe

- Developed a full-stack e-commerce platform featuring product catalog management, secure user authentication, and shopping cart functionality.
- Integrated Razorpay and Stripe payment gateways while implementing order processing, invoice generation, and an admin dashboard for inventory and sales monitoring.

Topic : POS Billing Application
Technologies : Django, PostgreSQL, React, HTML, CSS, JavaScript

- Built a retail point-of-sale system supporting product inventory management, automated billing, tax calculation, and discount processing.
- Designed transaction tracking and reporting dashboards to monitor revenue performance and generate daily sales summaries.

Topic : Employee Management Web Application
Technologies : Django, MySQL, HTML, CSS, JavaScript

- Created a full-stack employee management system enabling secure CRUD operations and structured workforce data management.
- Implemented authentication and role-based access control while managing the application lifecycle from design to cloud deployment.
- Demo: http://thasneemmoosa5000.pythonanywhere.com/

Topic : Real Estate Management & Listing Platform
Technologies : Django, SQL, React, JavaScript

- Developed a web platform for property listing, browsing, and portfolio management with advanced search and filtering capabilities.
- Implemented backend workflows to manage property data while designing a responsive interface for seamless multi-device access.

Topic : Cross-Platform Mobile Applications with In-App Payments
Technologies : Flutter, Dart, Firebase, Stripe

- Built cross-platform mobile applications for Android and iOS with integrated Stripe payment processing for secure in-app transactions.
- Utilized Firebase services and REST APIs to enable real-time data synchronization and scalable backend functionality.

Topic : Task Management Mobile Application
Technologies : Flutter, Dart, SQLite

- Designed a productivity-focused mobile application supporting task creation, categorization, and reminder-based scheduling.
- Implemented offline data storage using SQLite and developed an intuitive interface following Material Design principles.

Topic : Sales Performance Dashboard
Technologies : Power BI, SQL, Excel

- Developed an interactive analytics dashboard to visualize sales trends, KPIs, and revenue performance metrics.
- Integrated multiple data sources through ETL processes to deliver actionable insights for business decision-making.

Topic : IoT Data Monitoring System
Technologies : Python, Flask, PostgreSQL

- Built a backend system to collect, process, and store real-time data from IoT devices using Python and Flask.
- Developed API services and visualization tools to monitor device performance and operational health metrics.

PERSONAL STRENGTHS

- **ANALYTICAL THINKING** - Possess strong analytical abilities to evaluate complex technical problems and develop efficient, logical solutions.
- **PROBLEM-SOLVING MINDSET** - Demonstrate the ability to identify issues quickly and implement effective solutions to improve system performance and functionality.
- **ADAPTABILITY TO EMERGING TECHNOLOGIES** - Quickly learn and adapt to new tools, frameworks, and technologies in rapidly evolving development environments.
- **ATTENTION TO DETAIL -** Maintain high accuracy while developing, testing, and optimizing code to ensure reliable and error-free applications.

ADDITIONAL INFORMATION

Visa Status: Open to international relocation and visa sponsorship

LANGUAGES SKILLS

Mother tongue(s): **MALAYALAM**

Listening C1 Reading C2 Writing C2
